Code   DAT215.1x
Titel   Developing SQL Databases
Hyperlink https://www.edx.org/course/developing-sql-databases
Doorlooptijd 4 weken (2 maart tot en met 27 maart)

Week	Onderwerpen	Oefeningen
1	Designing a normalized relational database	https://www.wiseowl.co.uk/sql/exercises/standard/creating-tables/
	Designing and implementing tables	
2	Ensuring data integrity through constraints	
	Creating indexes	
3	Introduction to transactions	
	Managing isolation levels	
4	Final evaluation	
	Final database project	

Tutorials

Demo database normalization
Database Normalization in SQL
Relational databases by Brian Will
